

Custom Model Request Form

In order to submit a custom model request, please completely fill in all of the information below. Please attach any required photos to an email to be sent to ARAS 360 along with this form.

Required Information:

1. The vehicle Make, Model, and Year. For example: a 1999 Ford Explorer (if applicable).
 - a) Make:
 - b) Model:
 - c) Year:

2. The overall dimensions of the requested model:
 - a) Overall Length:
 - b) Overall Width:
 - c) Overall Height:
 - d) Wheelbase:

3. Is this model for original ARAS or for ARAS 360 HD?

Required Pictures:

The model creator will require a minimum of four (4) pictures. These must include clear, straight-on photos of:

- a) The front
- b) The back
- c) Both sides of the object or vehicle being modelled.

Please email your custom model request to: support@aras360.com. As always, if you have any questions please feel free to contact tech-support at support@aras360.com, or give us a call at (1-877-814-2360).

Note: All of the fields on this form must be completed in their entirety in order for a custom model to be completed. Incomplete requests may be rejected or returned with a request for more information. The necessary time to complete a model may vary, based on the number of requests that are already in the queue. Please note that we provide free custom models to all customers, however, the model requests cannot include interior details as this is cost prohibitive. We do our very best to generate models that represent crash and crime scene objects, as whole objects, with overall dimensions.
